

We Still Kill the Old Way

Lostprophets

So here we go again
Another time, but it feels the same
Got sick of waiting here
Set sail on concrete waves
No survivors left to save
Too late for the walking dead

We'll make it on our own
Breathing our own air
Cause no one else will care
No one really knows
Need more room to shout
Time is running out
But even through your doubts
We will still be here
We will still be here!

See it all, I see it all
Still kill, still kill the old way
I'm gonna die before I fall
Don't try to save me

Moving on to a different place
People hide but I see the face
One that's full of hate
Their apathy's not affecting us
Maybe they ride on a different bus
Realize that we'll never change

We'll make it on our own
Breathing our own air
Cause no one else will care
No one really knows
Need more room to shout
Time is running out
But even through your doubts
We will still be here
We will still be here!

See it all, I see it all
Still kill, still kill the old way
I'm gonna die before I fall
Just try to save me

Oh-oh last time I'll fold
Oh-oh this is the last time I'll fall

See it all, I've seen it all
Still kill, still kill the old way
I'm gonna die before I fall
No one's saving me

See it all, I've seen it all
Still kill, still kill the old way
I'm gonna die before I fall
No one's saving me
