

Rise Below Slowly

Lou Barlow

This is as far as I go
I stopped it from glory, just then
I can't seem to keep it 'til further
I've given it up for a friend
I've given it up
Take it further
Far and above all I know
A great trust has left me for weaker
It's bitter bite making me strong

I kick it to rise below slowly
I cut the shape open to see
I build a wall to be broken down
I break it down easy for me
I break it down easy for me
I kick it down slowly to see
I break it down easy for me
I kick it down slowly to see
