

Beauty on the TV-Screen

Lou Bega

She is the appetite my appetite for love
And I know that she is comin'
The she is comin' from above
Every time I see her I just can't get enough
She is cute she is pretty
And sometimes she is tough

She is my beauty
She is my beauty on the tv-screen
-yeah she is!
And when you see her
You would know what I really mean

Yes she got legs that reach the skies
And she has eyes that are open wide
So please could you jump out that damn tv
And put those little arms all around me
There is nothin' yeah there is nothing
Like that little butt
Planned out designed and coproduced by god
Yeah when I see you I just can't get enough
Cause she is cute and pretty
And sometimes she is tough

She is my beauty
She is my beauty on the tv-screen
-yeah she is!
And when you see her
You would know what I really mean

She will never disappoint me
She will never make me cry
She will never ever play me
But her lovin' let's me die
She will never disappoint me
She will never make me cry
She will never ever play me
But her lovin' let's me die

She is my beauty
She is my beauty on the tv-screen
-yeah she is!
And when you see her
You would know what I really mean
