

# Mr Tenor Man

Lou Christie

They talk about the bass man, he had success  
Oh what they say about him, I couldn't care less  
But I'm a tenor man and a-don't you forget  
That I have got the sound that the kids love best

(Listen to the tenor man, listen to the tenor man  
Listen to the tenor man, ah)

They all come around and we hit the town  
They never start screamin' till they hear this sound  
Now I don't care about a "boom boom boom"  
They don't start to swoon till they hear me croon

They talk about tenors day and night  
Don't care if the sound is wrong or right  
All I have to do is open my mouth  
Everybody wants to jump and shout

Now, Mr. Bass Man, before you go  
Let me hear you "boom boom" just once more  
Together now!
