

# She's Got To Know

Lou Gramm

She's got to know  
She's got to know why  
You love her so  
Tell her why  
Show her how you love her hard  
She got to know  
Give her reason  
Show her why

I can't believe  
You don't want to see,  
She's slipping away from you  
Can't you remember  
The way you won her heart  
You see it's tearing her apart  
You don't say the things you used to

She's got to know  
She's got to know why  
You love her so  
Tell her why  
Show her how you love her hard

I know this love is like a raging sea  
But she's drifting away, away from you  
You'd better think about it  
Can you do without it?

She's got to know what you want to do  
You better tell her  
Oh yeah  
I said tell her  
Oh yeah  
Tell her  
Oh yeah  
She's got to know

I can't believe  
You don't want to see  
She won't be hanging around  
She's your woman  
She makes you proud  
You feel ten foot tall  
Strutting 'round this town

She needs to be seen  
Seen by your side  
Walking hand in hand  
With her loving man

She dresses up for you  
Does her hair for you  
She wears your ring  
It means everything

Now take a look around  
Who's looking at your woman

They wished they had  
The sweet thing that you have

Take my advice  
Don't want to say it twice  
Don't let her go  
Oh no no no

You've got to  
Hold her  
Squeeze her  
You know how to please her

Show her the soul of a man  
Now if everything feels right  
You tell her tonight  
She's gonna love you like  
No one else can

You'd better tell her  
Oh yeah  
Come on tell her  
Oh yeah  
I said tell her  
Oh yeah

She's got to know
