

Good Taste

Lou Reed

You're makin' a fool out of yourself
By following me around
Like a Japanese woman who stands ten steps in the shadow of her
man
You're following me around
You're following me around

You're makin' a joke of yourself
Your friends are talking behind your back
You're makin' a joke of yourself
Your friends are talking behind your back

What you gonna do
What you gonna do

Makin' a fool of yourself over me
Makin' a fool of yourself, can't you see
Makin' a fool of yourself over me
Over me, over me, over me
Proves that you have good taste

Makin' a fool of yourself
By slipping around
Shooting up (?)
Under the ground

But it just gets to prove
That you've got good taste
You've got good taste
