Hooky Wooky

I'm standing with you on your roof Looking at the chemical sky All purple blue and oranges Some pigeons flying by The traffic on canal street's so noisy It's a shock And someone's shooting fireworks or a gun On the next block

An-an-and, I wanna hookywooky with you I wanna hookywooky with you

The traffic's so noisy it's a shock Sounds like fireworks or a gun on the next block Ah, hookywooky with you

Your ex-lover satchel is here from france Yet another ex They gather about you like a mother superior All of you still friends, but -None of my old flames ever talk to me when things End for me they end They take your pants, your money, your name But the song still remains

An-an-and, I wanna hookywooky with you Ah-ha-ha-ha, I wanna hookywooky with you

Then they take your pants, your money, your name But the song still remains, sayin' -I wanna hookywooky with you

You're so civilized it hurts I guess I could learn a lot, ha-ha... About people, plants and relationships How not to get hurt a lot And each lover I meet up your roof I wouldn't want to throw him off, mmmmm. Into the chemical sky, down into the streets to die Under the wheels of a car on canal street And each lover I meet up on your roof I wouldn't want to throw him off, mmmmm. Into the chemical sky Under the wheels of a car to die on canal street

Ah-ah-hi, I wanna, ah, hookywooky with you Ah-huh, huh-huh-ah I wanna hookywooky with you

I wouldn't want to throw him off into the chemical sky Down into the streets to die Under the wheels of a car on canal street
