

## Pow Wow

Lou Reed

Christopher Columbus discovered America  
found he had a cornucopia  
Gave love to the Indians, they gave it back  
a pow wow in the teepee is where it's at

I want to dance with you  
I want to dance with you  
I want to dance with you  
I want to dance with you

The Indian fought with his arrow and bow  
till General Custer lost to Sitting Bull  
Scalped all day and scalped all night  
give me fire water, gonna buy me a wife

I want to dance with you  
I want to dance with you  
I want to dance with you  
I want to dance with you

When your people first moved to our block  
our ancestors met with culture shock  
Two different monkeys from two different trees  
come on let's stop our fightin' and come dance with me

Come on dance with me  
come on and dance with me  
'Cause I really wanna dance with you  
I want to dance with you  
come on and dance with me
