

Vanishing Act

Lou Reed

It must be nice to disappear
To have a vanishing act
To always be looking forward
And never looking back

How nice it is to disappear
Float into a mist
With a young lady on your arm
Looking for a kiss

It might be nice to disappear
To have a vanishing act
To always be looking forward
Never look over your back

It must be nice to disappear
Float into a mist
With a young lady on your arm
Looking for a kiss

It must be nice to disappear
To have a vanishing act
To always be moving forward
And never looking back

How nice it is to disappear
Float into a mist
With a young lady on your arm
Looking for a kiss

Looking for a kiss
Float into a mist
