

# Icarus

Lou Rhodes

Caution is not my middle name  
When it comes to love  
Like Icarus I fly too high  
And burn my wings on the sun  
But all I can do is dive back in  
So here I am standing on that edge again

And I wanna ask you darling  
Could we fly  
'Cause looking in your eyes right now  
Nothing could be too high

And there's a kind of wisdom in being alone  
We're born and we die that way  
When all's said and done  
But all my soul's yearning comes back to two  
Could all my heart's searching  
Have brought me to you

So what you say in baby  
Could we fly  
'Cause looking in your eyes right now  
Nothing could be too high

And something tells me this time  
We could fly  
'Cause looking in your eyes right now  
Nothing could be too high

Yes something tells me this time  
We could fly  
'Cause lying in your arms right now  
Nothing could be too high
