

It All

Lou Rhodes

Is it worth your white
To step out of line
Go the extra mile
In this space and time

Or you can just close your eyes to it all
Curl up and die to it all
You can just close your eyes to it all
Say your goodbyes to it all

"Is this all there is"
I hear you say
Well think of all you miss
Every day

Or you can just close your eyes to it all
Curl up and die to it all
You can just close your eyes to it all
Say your goodbyes to it all

What if that's all there is
Wake up, wake up to what you miss

And you can just open your eyes to it all
Breathe in the sky of it all
You could open your eyes to it all
Just for the high of it all
