

## Sister Moon

Lou Rhodes

She laughed at me  
Under a night-time tree  
My sister moon told me  
You'd be here soon

Missing you like I do  
I prayed she spoke true  
Missing you like I do  
I prayed she spoke true

Then through the dark  
Came a fiery spark  
A shooting star told me  
You were never far

Missing you like I do  
I prayed he spoke true  
Missing you like I do  
I prayed he spoke true

Doubt plays with me  
When you're away  
Though my heart knows the truth  
On my mind she preys

Then tender night  
Wrapped her blanket tight  
Of deepest blue telling me  
You were ever-true

Loving you like I do  
I prayed she spoke true  
Loving you like I do  
I prayed she spoke true yeah  
Loving you like I do  
I know
