

# Butterfly

Loudness

Woman, you are a butterfly  
Dancing fire with savage grace  
Man to man you freely ramble  
Change your minde you change your face

Don't keep me waiting all night long  
Don't keep me crying all night long  
Don't take me down  
Don't bring me down

Tellin' lies are what you're good for  
What's this game you play?  
I come close you keep your distance  
I'm falling victim to your ways

Don't keep me waiting all night long  
Don't keep me crying all night long  
Don't take me down  
Don't bring me down

Tell me if you still feel the same way for me  
Tell me, if you don't love me any more  
Oh no, anymore  
Oh no, anymore
