

Dark Desire

Loudness

All night long, shout it out
Time for rock and roll
Got to know what it's about
Got to let it go

Sometime we called children
Bored of their lives
You've got that mad anger
All of your life

Dark!
Got a dark desire
You have joined the night
Rock!
Start a fire with rock
Start a fire tonight

Hit the road, move it out
How you want to feel?
Joining soon, makes you shout
So much honesty

Sometime we called children
Bored of their lives
You've got that mad anger
All of your life

Dark!
Got a dark desire
You have joined the night
Rock!
Start a fire with rock
Start a fire tonight

Sometime we called children
Bored of their lives
You've got that mad anger
All of your life

Dark!
Got a dark desire
You have joined the night
Rock!
Start a fire with rock
Start a fire tonight
