All night long, shout it out Time for rock and roll Got to know what it's about Got to let it go

Sometime we called children Bored of their lives You've got that mad anger All of your life

Dark!

Got a dark desire
You have joined the night
Rock!
Start a fire with rock
Start a fire tonight

Hit the road, move it out How you want to feel? Joining soon, makes you shout So much honesty

Sometime we called children Bored of their lives You've got that mad anger All of your life

Dark!

Got a dark desire
You have joined the night
Rock!
Start a fire with rock
Start a fire tonight

Sometime we called children Bored of their lives You've got that mad anger All of your life

Dark!

Got a dark desire
You have joined the night
Rock!
Start a fire with rock
Start a fire tonight
