

Desperation Deseccration

Loudness

So insane, I can't stop this clawing
Rip this madness from my eyes and sight
Like a beast on four legs I am crawling
Drag my prey below the burning light

No one hears, no one cares about your cries
You must live my nightmares when hope dies

Desperation, deseccration reigns
Run for cover
Desperation, deseccration reigns
It will never be over

Run for cover

In my brain I can't stop this fire
Raging and destroying self control
Hanging on to life by one thin wire
Like some puppet dancing with your soul

No one hears, no one cares about your cries
You must live my nightmares when hope dies

Desperation, deseccration reigns
Run for cover
Desperation, deseccration reigns
It will never be over

Run for cover

So insane, I can't stop this fire
Raging and destroying my lost soul
Hanging on to life by one thin wire
Like a puppet show out of control

No one hears, no one cares about your cries
You must live my nightmares when hope dies

Desperation, deseccration reigns
Run for cover
Desperation, deseccration reigns
It will never be over

Desperation, deseccration reigns
Run for cover
Desperation, deseccration reigns
It will never be over
