

Exultation

Loudness

I know you are scared
I know you are afraid
I know you are nothing

Won't you get out of my sight
Before I beat the shit out of you
You miserable and worthless creature
A natural born finger-pointer

Who the hell you think you are?
All that you can do - Trembling with fear
Hey loser you'd better shut your mouth
Be a man, die like a man

We'll never give up - Exultation
Never surrender - Exultation
We will fight to win - Exultation
With all our might - Exultation

Don't let it get you down

You'd better better better learn to run
You'd better better better learn to think
You'd better better better learn to see
You'd better learn to learn

Who the hell think you are?
Jealousy and slander
Hey you loser you'd better shut your mouth
Won't you realize that your life is in your hands

We'll never give up - Exultation
Never surrender - Exultation
We will fight to win - Exultation
With all our might - Exultation

Who the hell think you are?
Jealousy and slander
Hey loser you'd better shut your mouth
Won't you realize that your life is in your hands

We'll never give up - Exultation
Never surrender - Exultation
We will fight to win - Exultation
With all our might - Exultation

Don't you ever hang your head
Stand your ground - Straight and tall
