

Live For The Moment

Loudness

On the midnight highway
Gas pedal to the ground
Shrieking tires - It's howling
As the dawn approaches
The sky burns in flames
I'm getting off - Driving high

We are the demons of the highway
Hang on to the steering wheel

Live for the moment (fight to be free)
Don't ever regret (fight to be free)
Let me hear you shout
Instinctive passion
Ignite fuel in me

Set off the fire
Your reason for desire
Throw all your rule books away
Breaking the chains of law and order
Unleash the beast in you right now

We are the monsters of the highway
The sensation fires off in our head

Live for the moment (fight to be free)
Don't ever regret (fight to be free)
Let me hear you shout
The devil inside
It's bursting through my veins

Live for the moment (fight to be free)
Don't ever regret (fight to be free)
Let me hear you shout
Instinctive passion
Ignite fuel in me

Live for the moment
Fight to be free
Don't ever regret
Fight to be free
Let me hear you shout
Fight to be free
