

# Real Man

Loudness

Back in my days of heedless ways  
Life in a perfect standstill  
I was going straight down the drain when  
I got my morning call

It was a heartbeat, a brand new life  
A kick of power that gave me a new sight  
Just to feel the life growing inside  
I think I fell in love

Welcome to the new world, darling angel  
Baby, let me light your way  
I will promise you anything, baby  
I'll help you reach for the stars  
Fear not anything, my darling angel  
Baby, I could die for you  
You turn darkness into light

Back in my days of endless daze  
Looking for the answers of life  
I was lost, head in a rut when  
I heard a voice inside

You gotta make it right, let in the light  
You should know that love will give you flight  
The real man that you're holding inside  
Will make you proud and tall

You bring joy to the world, oh my baby  
Oh you're my shining star  
I will promise you anything, my baby  
You have the world in your hands  
Angel, you are the springtime of my life  
Baby, you make life anew  
You turn darkness into light

Welcome to the new world, darling angel  
Baby, let me light your way  
I will promise you anything, baby  
I'll help you reach for the stars  
Fear not anything, my darling angel  
Baby, I could die for you  
You turn darkness into light

You bring joy to the world, oh my baby  
Oh you're my shining star  
I will promise you anything, my baby  
You have the world in your hands  
Angel, you are the springtime of my life  
Baby, you make life anew  
You turn darkness into light

Welcome to the new world, darling angel  
Baby, let me light your way  
I will promise you anything, baby  
I'll help you reach for the stars  
Fear not anything, my darling angel

Baby, I could die for you  
You turn darkness into light
