

# Speed Maniac

Loudness

Blastin' through the highway  
Daredevil on the road  
We're in the war zone - Can't slack off my speed  
I'm a real deal - Bad-assed piece of steel  
Pushin' to the limit - Leaving all behind

A mad racer  
Racing like hell  
Head to a goal

Howling and growling like a mad bull  
Thundering engine rattles my skull  
It's a need for speed - I will not concede  
Nothing's gonna stop my mean machine

Crazy racer  
Racing like hell  
Head to a goal

It's now or never  
I'm doing whatever it takes to get me even higher

We are rolling over the highway  
We won't look back - Never hold back  
You might say we're going down the lost highway  
No one can stop and hold us back

I am not sorry for all my misdeeds  
Dance with the devil - A killer demon speed  
On the razor's edge - Pain and pleasure engage  
An evil appetite gives a green light

A mad racer  
Racing like hell  
Head to a goal

Roaring and growling like a mad bull  
Thundering engine rattles my skull  
It's a need for speed - I will not concede  
Nothing's gonna stop my mean machine

Atsui racer  
Racing like hell  
Head to a goal

Caught in the middle of paradox and riddle  
Just trust yourself and you'll see

We are rolling over the highway  
We won't look back - Never hold back  
You might say we're going down the lost highway  
No one can stop and hold us back

It's now or never  
I'm doing whatever it takes to get me even higher

We are rolling over the highway

We won't look back - Never hold back  
You might say we're going down the lost highway  
No one can stop and hold us back
