

# This Lonely Heart

Loudness

I hear the sound of a heartache  
I hear the cries of a lonely heart  
I got to know where I'm going  
I feel the light of this love grow dark  
Blinded by faith  
Still I keep waiting for you, for you  
Run with the night, love, running blind  
I'm losing you

I feel the flames of your fire  
I feel the touch of your racy eyes  
I know I'm cursed, with a fever  
I feel the wind of your hurricane lies  
Blinded by faith  
Still I keep waiting for you, for you  
Run with the night, love, running blind  
I'm losing you

This lonely heart  
This lonely night, is turning my world into  
This lonely heart can't see the light  
To find my way back to you  
This lonely heart  
This lonely night  
Baby I'm losing you
