I got your real love, baby I got everything on my side I got your real love, baby I wanna keep you satisfied

Can't you see I'm so true?
I'm crazy for you
So spend your life with me
That's all you can do

We could be together We could be together

I want your real love, baby
I'll get you everything that you need
I want your real love, baby
I'll try to keep you satisfied

Can't you see I'm so true?
I'm crazy for you
So spend your life with me
That's all you can do

We could be together, oh yeah

I don't wanna hurt you You don't need the pain Don't you know that I need to Love you again?

I got your real love, baby
I got everything on my side
I got your real love, baby
I wanna keep you satisfied, oh yeah

I got your real love, baby
I got your real love, baby
I got your real love
I got your real love, baby
I got your real love
