

# Hopesick

Louis XIV

I need sleep  
I need love  
I need fun  
I need girls  
I need sun  
I need hope  
I need help  
I need dope  
I need her  
I need it  
I can't run  
I can't sit  
I got pain, I got pain, I got pain

Hope sick  
Hope sick  
Hope sick  
Hope sick

A heart flutter  
And I shutter  
A hand shake  
A heart break  
I love her  
She loves me  
But in my mind  
But only in my mind

Hope sick  
(If it was so hard to hope)  
Hope sick  
(How come I can't let you go?)  
Hope sick  
Hope sick

I need wheels  
I need touch  
On my toes  
On my heels  
On my lips  
On my head  
On the street  
I need stuff  
I need a heart  
I need a break  
My skin aches  
What does it take  
I need me, I need me

It's like I'm hanging from a rope  
From a string  
From a needle  
From a thread  
In my head

(Hope hope hope hope)

Hope sick  
(If it was so hard to hope)  
(How come I can't let you go?)  
Hope sick  
(Hope sick)

(If it was so hard to hope)  
(How come I can't let you go?)

(If it was so hard to hope)  
(How come I can't let you go?)

A heart flutter  
I shudder  
A hand shake  
A heart break

Hope sick  
Hope sick  
Hope sick  
Hope sick

It's like I'm hanging  
(Hope sick, hope sick)  
From a rope  
(Hope sick, hope sick)  
From a string

(Hope sick, hope sick, hope sick)
