

For Your Love

Louise Hoffsten

I've been standing in line
Not an entrance in sight
Thought I'd wait for the time
That just never seemed right

My body is boiling when I see your smile
Now I'll get to the matter, I'm changing my style
There's a way to your heart and 'til you let me in
I'll do anything for your love

For your love
I'll be your guide
For your love
For your love

I'll eat my pride
For your love
For your love
I'll start a war

For your love
For your love
All for your love
I'll be nice as a dog

I can roll around too
And jump as a frog
Well, I'll be your own zoo
But I don't want ovations, I don't need applause

Just give me the night and the world will be yours
I'll fulfill your dreams and pull the right strings
I'll do anything for your love
For your love
I'll be a fool

For your love
For your love
A working tool

For your love
For your love
The alibi

For your love
For your love
All for your love
