## **Seasons Of Love**

## **Louise Hoffsten**

Many roads have eaten my shoes On may way looking for you I think my search has come to an end So why not check out my menu No more promises of the empty kind Just som autumn leaves to colour my mind Let me show you all the reasons for love Oooh Let me take you through the seasons of love Spring won't always keep us warm The summer heat can be to much We will be tossed by many storms Challenging our rage and guts Don't be afraid my little darling I will catch you in the rain when it's falling Oooh Let me show you all the reasons for love Oooh Let me take you through the seasons of love Let me show you all the reasons for love Let me take you through the seasons of love We might as well enjoy the weather Let's me melt the cold winter snow Into a river of love that will always flow
