

How You Make Me Feel

Louise

Oh my girl
The way you make me feel
The way you make me feel
The way you make me feel

Since we've been together
Going out of my mind
For ever and ever
I've been searching to find

All of my life
Just you and me
Come with me
I'll sho you the way

I know it's so unbelievable
I guess my heart, my soul

Just as long as you know
How you make me feel
Just as long as you say
That it is for real
Just as long as you know
How you make me feel
Just as long as you say
That it is for real

Just another moment
So precious for time
Time
Every moment
Baby you've on my mind

I wanna the world
To know how I feel
Let me take you all of the way

I know it's so unbelievable
I guess my heart, my soul

Just as long as you know
How you make me feel
Just as long as you say
That it is for real
Just as long as you know
How you make me feel
Just as long as you say
That it is for real

Baby, baby, baby, baby

Words can express the way you make me feel
Deep inside, I know the stuff is for real
So please louise, take my affection
I'm a gentleman, so there's no need to mention
The feelings for you will never, ever end!

The best thing about it is you're my best friend
So ohh la-la, comme-ce, comme-ca
These words that I say come straight from the heart

Ooh-ooh, ooh-ooh

Do-be, do-be, do-be, baby

It's so unbelievable
I guess my heart, my soul

Just as long as you know
How you make me feel
Just as long as you say
That it is for real
Just as long as you know
How you make me feel
Just as long as you say
That it is for real
