

Reminds Me Of You

Louise

Woke up this morning
I opened up my eyes
To see the sun was shining through

There was something special
I couldn't help but smile
Baby, as I remembered you

Turn away, dig along
They play my favorite song
Found an old photograph
Remembered how you made me laugh

Reminds me of you, there was no better
We thought we had nothing to lose
Reminds me of when, oh yeah, we were together
All the things you and I used to do
Reminds me of you, yeah

The first time I saw you
We must have talked for hours
I guessed we put the world to right, yeah

You drove me crazy
You drove me home at night
I never wanted to say goodbye

Like I know, movie scene
Wasn't real or make believe
Heaven knows, I can't forget
Memories are all that's left

Reminds me of you, oh yeah, there was no better
We thought we had nothing to lose
Reminds me of when we were together
All the things you and I used to do
Reminds me of you

Reminds me of you, there was no better
Reminds me of you, remember our first kiss
Remember, that's what I miss
Everything reminded me of you

Turnin' up radio, radio on
They're playing our favorite song
Found an old photograph
Remembered how you made me laugh

Reminds me of you, oh yeah, there was no better
We thought we had nothing to lose
Reminds me of when we were together
All the things you and I used to do
Reminds me of you

Reminds me of you, there was no better
We thought we had nothing to lose
Reminds me of when we were together

All the things you and I used to do
Reminds me of you

Reminds me of you, there was no better
We thought we had nothing to lose
Reminds me of when we were together
All the things you and I used to do
Reminds me of you
