

Everyone Has A Summer

Lovage

When a man needs a woman's love so much
It can be a beautiful love story
But not all love is beautiful
This is the strangest music to make love to

Passion filled rendezvous
Heart wrenching goodbyes
A memory of love
This is the way I always wanted it to feel like

It won't be not as long
As long as you insisted on living in the past
'Cause that's pain
I don't care who you are

It takes so many things to make love last
But most of all it takes respect
And I can't live with a man I don't respect
No wonder you're upset

She's lovely, he's quite the man about town
There's one song in particular he used in his, umm
Campaign, the phone bill is going to be enormous, you know
Everyone has a summer they remember
