

By the Way...

Love and Death

My life
Your death
I've been contemplating
And I let you go
As you disappeared
I didn't see it standing there
I didn't see it fall apart
And everything was so unfair
I had to walk away
To get it right

R:

And by the way
I'm doing alright and you don't know
What I had to give to walk away and live again
I'll always miss you and
And by the way
I think about you and the memories
Are never gonna leave
I know I'll see you there with me
Where we will always be alive

You're gone
I'm here
It's completely unfair
And my gifts
Your scars
I will carry now

Did you see me standing strong
Dying with a broken heart
From you fatality
So why'd you have to go
Why did you go

And by the way
I'm doing alright and you don't know
What I had to give to walk away and live again
I'll always miss you and
And by the way
I think about you and the memories
Are never gonna leave
I know I'll see you there with me
Where we will always be alive

I don't know how to go on
I hate you didn't make it
I'm so devastated
I don't know how to go on
I'm holding onto memories
Dying in my misery
I don't know how to go on
I've never felt pain like this
I don't know how to go on
Tell me how to go on
