

Fading Away

Love and Death

Contamination feeding the masses
Procrastination killing us all

We can see it decay and we play with it
Will we ever know
That we're livin' a lie
We can say it's ok and keep fakin' it
Will we ever know

R:
Lie down and let go
We're fading away
Time, time is so cold
We all die one day
Lie down and let go
We're fading away
We won't be around

This masquerade is falling to pieces
This escapade is coming apart

We can see it decay and we play with it
Will we ever know
That we're livin' a lie
We can say it's ok and keep fakin' it
Will we ever know

R:
Lie down, lie down and let GO!
Lie down! Let go!
Lie down! Let go!

Our pictures are so clear
We're fading away

R: (x2)
