## Love and Death

Make you real and honest  
Make it worth it all  
Make the pain melt away

R:  
Wait  
Don't throw away another day  
Wait  
Take a new avenue  
Wait  
Look inside you will find  
Wait  
The way you lie

Tell me you lost it  
Tell me you lost it  
Whatever it takes you know I won't let it break you  
Tell me you lost it  
Tell me you lost it  
Don't carry the weight  
I wait

I wait for you  
Always will, always do  
I wait for you  
Hurting, bleeding, dying, but  
I wait for you  
Always will, always do  
I wait for you  
Hurting, bleeding, dying, but  
I wait

Make you feel so vibrant  
Make you fall in love  
Make you feel like brand new

R:  
Tell me you lost it  
Tell me you lost it  
Whatever it takes you know I won't let it break you  
Tell me you lost it  
Tell me you lost it  
Don't carry the weight  
I wait

I wait for you  
Always will, always do  
I wait for you  
Hurting, bleeding, dying, but  
I wait for you  
Always will, always do  
I wait for you  
Hurting, bleeding, dying, but  
I wait

I'm fed up of missing you

I'm fed up of all your lies  
I'm fed up of chasing you  
I'm fed up of your disguise  
I'm fed up of missing you
