

Inside Out

Love and Theft

Sloppy Joes, 10 Dollar Buckets
Who's got a Zig Zag, I got the Chong
Cover band plain' Lyle Lovett
And yo and me the only one's singing along
Baby like smoke sun-kissed heaven
Jeasus fish there on your wrist
Drop a penny in my seven and seven
You say a prayer and I'll make a wish

I'd love to get you out of this bar
Right into the seat of my car
Girl, we don't have to look that hard
To find a little moonlight, baby it's alright
No it don't matter where we go
Just as long as I can hold you close
Kiss Your lips thinkin' about
Maybe turning them blue jeans inside out

I can tell I got you thinking
Leaning in and ready to roll
Lets put these city lights in the rear view
Give me the green light smile and lets go

I can't wait to get you out of this bar
Right into the seat of my car

Yeah
Baby
