

## Thinking Of You (And Me)

Love and Theft

Girl, your hand brushed mine  
Shouldn't be no big deal  
But When it does I can't deny  
How it makes my heart feel

You've got my imagination running  
Like a freight train on a downhill track  
Straight into the deep end of a feeling and I know  
That it ain't comin' back

I've been thinking' of you and how it'd feel to brush your hair  
back  
From your eyes and kissing you  
Kiss you way over that line  
To find out how good it could be  
I've been thinking of you and me

Now I don't want to go and make things  
Complicated  
And keeping you as my best friend  
Would be okay but what if everything we ever wanted was a whisp  
er  
And a touch away  
I'd rather risk it knowing, oh, then be a fool forever  
Oh, and never say

Oh,

Yeah, thinking of you
