

# Damaged

## Love Battery

Drive upon ends time  
The crimson in your eyes never gets into your bones  
Never stop believing  
You cut so many times you can't even trust yourself  
Yeah, I really care  
Of all the things you said I'd never care about

If you don't say a word  
Noone will no it's so hard not to follow  
And I'm not unaware  
Of what's done to you is done to me too  
Yeah, I don't really care  
'bout all things I said I really cared about

Leave some sence!  
Gotta get outta here!  
Tom said this is killing me!'  
Scott's gone, Scott's gone underground  
And I wanna cross this wide country  
Yeah, and we're all damaged

Drive upon ends time  
The crimson in your eyes never gets into your bones  
Never stop believing me  
You cut so many times you can't even trust yourself  
And I'm not unaware  
Of what's done to you is done to me too

Leave some sence!  
Gotta get outta here!  
Tom said this is killing me!'  
Scott's gone! Scott's gone underground!  
And I wanna cross this wide country  
Yeah, and we're all damaged

Leave some sence!  
Gotta get outta here!  
Tom said this is killing me!'  
Scott's gone! Scott's gone underground!  
And I wanna cross this wide country

Leave some sence!  
Tom said!  
Scott's gone!  
And I wanna cross!

If you, if you ever  
If you, if you ever  
If you, if you ever  
Noone will know

If you, if you ever  
If you, if you ever  
If you, if you ever  
Noone will know

Yeah, and we're all damaged

(I doubt these lyrics are right,  
but it was the best I could do trying  
to understand what he was saying)
