

Wake Up

Love Spit Love

TV talk shows shining light
From every window
She pulls a dress on
And she who cares where she goes

And wake up, wake up
Here's another day
And wake up, wake up
It's time your wide awake

And don't make promises
That don't mean anything

And wake up, wake up
Wake up, wake up
It's light out honestly
It's time you're wide awake

Go where the party goes
Dressed up in shiny clothes
We drink the water
And it tastes like medicine

And wake up, wake up
Here's another day
And wake up, wake up
It's time your wide awake

And don't make promises
That don't mean anything

Watch the day go round
And wake up, wake up
Watch the sun go down
With all the animals

I watch the river run
And wake up, wake up
Wake up, wake up
Wake up, wake up

Jeannie talks too much
To all the animals
I hear a mad dog bark
She'll tell you what it said

Watch the day go round
And wake up, wake up
Watch the sun go down
With all the animals

I watch the river run
And wake up, wake up
Wake up, wake up
Wake up, wake up
