

## Love Is More Than Words (Or Better Late Than Never)

Love

You say you love me  
But you know love is more than words  
That's what I heard  
So I'm passing on what I learned  
I think about you  
But I see thinking is just the door  
I want the key  
To unlock what I've found out in me  
Love to Russia  
And Love the States  
Love to China  
Before it gets to be too late  
So put love all over your face
