

Can't Get Used To It

Lovebugs

My dear friend I see you grow older
Without a doubt where you could belong
While I try to stand and
I'm always just confused
My dear friend you move to your girlfriend
While I still wanna have the world
But I'm just lonely and
Wish that I could be like you

Life - oh I just can't get used to it

My dear friend you can tell exactly
What it is that makes you feel alright
While I'm still looking and
Feel sometimes misunderstood
My dear friend there's always something
Always a reason that makes you feel busy
While I'm just bored want to escape
In arms that don't exist

Life - oh I just can't get used to it
