

## Emily

## Lovebugs

You gonna phone me up again  
When you've sat too long alone  
At a table there at lou's  
Drift about the afternoon

And of course I sit with you  
For a while most every day  
Wave at people that pass by  
I find it easy with you

And I wonder why it's so hard  
For you to fall in love  
And I wonder why it's easy  
For you to fall in bed

We can laugh at everyone  
But most about ourselves  
Yes I couldn't take a look  
In a serious way at you

Oh emily  
It's 'cause I love you far too much
