

Hard To Find

Lovebugs

I met a girl
With no fingernails
And a diamond tooth
Oh she can make me fly
I met a girl
Who said that
She's not worth anything
But means the world for me
And so
She's hard to find
And hard to hold
She's hard to find
Now all that I want to be
Is lost in her arms
Now all that I want to know
Is that we both feel as one
I met a girl
Who dances like a leave
In the autumn wind
Oh she can make me dream
She's with me on somedays
Like there's no tomorrow
And suddenly she's gone
But anyway with me
And so
She's hard to find
And hard to hold
She's hard to find
