

Midge

Lovebugs

Are you my friend
Or are you my enemy
You're always starrng
But you'll never see
Are you my end
Or are you my remedy
You always want the best
But it's only killing me
Are you afraid
Are you afraid
Are you afraid

I can go where nobody goes
I can see what nobody sees
And I can do what no one did before

Hugh
I don't belong to anybody
They always want the best for you
They always say they understand
You always try too hard

You can try so hard
But we'll never be the same
