

## Starving

Lovebugs

Tell me where have you been  
I was starving the other night  
I was starving today  
Tell me where have you been  
I was starving the other night  
I was starving 'cause I needed you  
I just can't wait another day  
I want the daysies and the butterflies  
And nothing else can make me stay  
It only drives me all insane  
All insane  
I just can't wish another day  
I want a riot and a heart of bliss  
Too many things can make me stray  
And drivin'all my friends away  
I just can't dream another day  
I want the roses and the buttercups  
And everything that's beautiful  
It only tears me all apart  
All apart
