

Waiting For A Miracle

Lovebugs

Won't take no for an answer
Every girl a table dancer
Every boy a rented hole
A sad infected junkie soul
Dangerous and open minded
Games he plays always one sided
Your downfall is calculated
Glory days have faded

Tomorrow will be sanctuary
Young boys, young girls
Waiting for a miracle

Needle dreaming powder joy
I'm anybodies, I'm your toy
Build yourself up with a pill
It takes guts to kill

Tomorrow will be sanctuary
Young boys, young girls
Waiting for miracles
Just to get by need to get high
Young boys, young girls
Waiting for a miracle

Chasing after mother's love
Hide from dragons high above
Come to mummy, I'm sure he said
Drugged me, fucked me, left for dead
I guess I was asking for it
But it bit me before I saw it
Sucked my soul, I had no chance
Ring the bell for last dance
