

Revival

Lovedrug

Carry my soul on a road to glory
Look at my savior, she's down in the water
What is my fate, I want to survive it
Look at my savior, she's down in the water

If you care, don't stop
If you care, don't stop

Carry my weight, I've grown so tired
Tell me your eyes said revival
What is our fate, I want to survive it
Look at my savior, she's down in the water

If you care, don't stop
If you care, don't stop
When you pull me in your fire
You save me from myself
If you care, don't stop

Take your hands, revival
Save me from my aching needs
Let me feel your revival all over me
