

# Teardrops In The Well

Lovedrug

such a lonely mother  
the building catches fire  
she's still at the office  
with another guy  
Close your eyes, we've got to get out of here  
Let cold waves crash away  
Close your eyes, we've got to get out of here  
let our old lives fade away  
yelling at the stars  
tear drops in the well  
sun sets at the light house  
by the cliffs where she fell  
Close your eyes, we've got to get out of here  
Let cold waves crash away  
Close your eyes, we've got to get out of here  
let our old lives fade away  
the sky is green before the storm  
the air is yellow, we are born  
I picture you inside the wave  
I'd drink the ocean just to stay  
lets all start again  
He swears he'll never leave her, she's lost her corporate fever  
so lets all start again  
with our tear drops in the well you know  
our life can start again you know it can
