

Goodbye My Love

Lovehatehero

So, this isn't where you thought we'd be,
You explained.
And now, you leave it up to me.
I'll go, move on.
We eat, We breath
We're living our dream
I'll find, replace you with a better mind.

Oh, they sing our song, they cheer us on, and make it all worth
while.

So, this isn't where you thought we'd be,
You explained.
And now, you leave it up to me.

Farewell, my love.
Say "hello" to state lines, separate our home lives.
Farewell, my love.
Say "goodbye" to girlfriend, you'll text her from the road.

Oh, they sing our song, they cheer us on, and make it all worth
while.

They always come and go.
Oh, they sing our song, they cheer us on, and make it all worth
while.

Oh, they sing our song, they cheer us on, and make it all worth
while.

Oh, they sing our song, they cheer us on, and make it all worth
while...
