

# It's Never Easy

Loverboy

You know and I know  
It isn't right  
We tried so hard  
Every night

I can still remember the night when I looked into your eyes  
I knew it must be love  
I can still remember the time came as no surprise  
I knew it must be love

It's too late, good-bye  
Not that we didn't try  
I feel so bad  
I'm hurtin' inside

I can still remember the night when I looked into your eyes  
I knew it must be love  
I can still remember the time came as no surprise  
I knew it must be love

It's never easy, easy  
When you fall out of love  
It's never easy, easy  
When you fall out of love

I can still remember the night when I looked into your eyes  
I knew it must be love  
I can still remember the time came as no surprise  
I knew it must be love

It's never easy, easy  
When you fall out of love  
It's never easy, easy  
When you fall out of love

It's never easy, easy  
When you fall out of love  
It's never easy, easy  
When you fall out of love
