

## Let's stay lost

Lovers

You and me, babe, we got lost in the same maze  
And I'm not great with change so let's stay lost, let's  
stay

Are all those tears for me?  
Or are some for who I'll never be?  
At twilight's fading will you lay here and fade with me?

All these lost days  
All these lost days  
Are these out last days together?

This city knows no names,  
I've been looking for a heart in this heartless place  
that's just made of mistakes, turn me off but don't turn  
away

I know your mind is made and I'm still braying for a  
shade of grey  
but if something pure remains let's stay lost, let's stay

Oh desire, you built a fire in me  
Oh the fire, it's heavy chemistry
