

## On The Sidelines

Lovex

I had my chance  
You gave it away  
I didn't say enough  
I did too much  
And everytime I look back in time I find myself questioning why

I'm deep in despair  
Deep down in my mind  
I relive the time  
When all could have been more than I've seen, when all could have been mine, all mine

Just if I  
If I could sleep by your side  
I would run through the night  
Hold you so right  
Hold the most beautiful sight

Standing on the sidelines  
Careless and afraid  
Don't dare to think  
What possessed my way  
And everytime I look back in time I find myself questioning why

Just yesterday  
I thought I knew  
All the words to say  
When all could have been more than I've seen, when all could have been mine, all mine

Just if I  
If I could sleep by your side  
I would run through the night  
Hold you so right  
Hold the most beautiful sight

Just if I  
If I could sleep by your side  
I would run through the night  
Hold you so right  
Hold the most beautiful sight
