

## Insult To Injury

### Lower Class Brats

I see your lips movin'  
But I hear nothin'  
Please excuse me  
Did you say somethin'  
You keep on talkin'  
But your words escape me  
Is your ego that big  
Or are you just afraid  
And me...

I don't really care about you  
Why just let it be  
I wanna add insult to injury

I'll treat you like shit  
When you're feelin' down  
And give you a kick  
When you're on the ground  
You try your best  
To act so tuff  
But your best  
Ain't good enough  
For me...
