

A Night to Forget

Lower Than Atlantis

All work, and no play
The game that you're playing
You've got bills to pay
And you've gotta pay 'em

If you're bored of life indoors
And don't have any plans
Come on
The more the merrier

This night is a night to forget
And we won't remember it
This night is a night to forget
And we won't remember it

You can call in sick
And you probably will be
Have a couple of drinks
Have a couple - winning

If you're bored of life indoors
And don't have any plans
Come on
The more the merrier

This night is a night to forget
And we won't remember it
This night is a night to forget
And we won't remember it
Forget about life
For just one night
And sing it with me
This night is a night to forget
And we won't remember it

Never had of anyone regret
Something that hasn't even happened yet
So you've gotta live before you're dead

This night is a night to forget
And we won't remember it
This night is a night to forget
And we won't remember it
Forget about life
For just one night
And sing it with me
This night is a night to forget
And we won't remember it

This night is a night to forget
And we won't remember it
This night is a night to forget
And we won't remember it
Forget about life
For just one night
And sing it with me
This night is a night to forget

And we won't remember it
